

GOD IS OKAY WITH YOU HAVING \$20,000 DOLLAR MONTHS!

20KMONTHS.COM

Here's how you can do it- Begin with the end in mind. Take out your calculator and type in \$20,000 and divide it by the price of your product or service. If your service is \$10 you need to sell 2000. If your service is \$2000 you need to sell 10. **Don't limit God** you can have a 20K product or service. I have a social media agency and the service is 30K and I have one that is 60K.

If your service is \$10 focus on bulk selling. For example, if you have a t-shirt line, consider selling a bulk order to 10 or less organizations. This could mean connecting with 10 local pastors or CEOs and sending them one free shirt and pitching them an offer to purchase shirts for the entire congregation. If you sold one church 250 shirt at \$10 that is \$2500 and times that by 10 and you have 25,000 dollars.

Your products and services may be priced to low. If it is too hard to get to 20,000-dollar months, you may have not priced for profit.

Look at all your products and services and do the math as to how many you need to sell each month to get to 20,000 dollars. The bible says write the vision and make it plain. The truth is if you do not set the goal for it, if you don't start expecting it, you can't have it.

Start writing down a budget for 20,000-dollar months. The Lord told me that I must have it **in my heart** (mind, will, imagination, intellect, emotions) before I could ever see it in my hand.

When you think about making 20,000 dollars a month don't fear but **anchor yourself** on the impact or on your why. Money is **only** a tool. We must stop exalting things that God has given us dominion over. Money is only paper.
